From the Ruhr Innovation Lab through Germany's excellence

The Universities of Excellence and excellence alliances, the sites with at least two Clusters of Excellence and all cluster sites in North Rhine-Westphalia

Find the shortest round trip out of 3.1×10^{23} options.

2,534 km

As the crow flies; proven shortest with integer linear optimisation (HiGHS).

- University of Excellence or excellence alliance from 2027
- further site of Clusters of Excellence: all with at least two clusters, all in North Rhine-Westphalia
- alliance with universities in several cities: one stop at their centre

Funding: Clusters of Excellence 2026–2032, Universities of Excellence and excellence alliances 2027–2033
